

KLAR 70/ 70 HI

KLAR

STUDIO | WINDOWS+DOORS

The KLAR 70 is a high performance and fully integrated window and door system. Due to the specially designed polyamide break and extruded gaskets that are incorporated into the aluminium profile it offers excellent thermal insulation performance with the U value from 0.17 and reduced noise properties.

In the KLAR-70 system, it is possible to produce windows with the so-called "hidden casement" MB-70US and the KLAR-70 "Industrial", finding its application during modernisations of post-industrial historic and monumental objects.
