

KLAR CLAD 68

KLAR

STUDIO | WINDOWS+DOORS

The exclusive timber-aluminum windows are an excellent choice. The unique combination of traditional and modern materials guarantees a cozy and warm interior as well as extreme resistance to weather conditions.

The design is based on the basis of two frames - 68 mm wood from the inside and aluminum on the outside, top solution on the market. For many years ... and even longer. Resistant to wind, rain, sun. They characterized by longevity in difficult conditions.
