

KLAR C70 INDUSTRIAL & HIDDEN SASH

KLAR

STUDIO | WINDOWS+DOORS

Our aluminium windows are modern, energy-efficient and secure.

Well-designed aluminum profiles, wide thermal break made from polyamide, hermetic seals of EPDM and polyolefin foam placed peripherally in the window pane cut allow for perfect adaptation to changing climatic conditions and achieve significant energy efficiency.

The offer includes sashes and slats of straight, rounded or oblique edge. The possibility of glazing up to 55 mm allows you to achieve better properties of acoustic and thermal insulation
